Suspended and wall-mounted Zuzanna is a magnificent decoration of interiors in classic and modern style. Attractive lamps will be a bright touch in creating an extraordinary design solution, especially in rooms where there is a lot of free space and high ceilings. The models are incredibly beautiful: their charm is emphasized by graceful pendants, jewelry made of transparent crystal.

APL.835.17.13

💡 13×40W – G9

■ CHROME

Tatin lamps will create a unique atmosphere of luxury and add sophistication to the interior composition in any style. The collection is represented by two models. In the evening, the warm light of a chandelier with a gold base will make pastel-colored furniture more saturated. In a room with an abundance of cold palette colors, Tatin crystal combined with chromed metal will add volume and depth.

CLASSIC

Nikoul

Designer Nikoul is an elegant decoration of classic and modern interiors. A crystal chandelier looks great in spacious rooms, where its mere presence adds sophistication and charm to the atmosphere. Wall lamps of this series will help to place light accents in the interior composition.

The Renacia premium collection is ideal for connoisseurs of bright and extraordinary solutions that can completely transform a classic or modern interior. The lamps are richly decorated with diamond-shaped plates of carved crystal - a single design composition resembles a three-dimensional crystal in shape.

E14

CLASSIC

Helcia

The hallmark of the Helcia collection is crystal pendants, jewelry assembled into inseparable threads, and a complex geometric pattern applied to the metal base of the plafond-bowl. The design of the sconces and ceiling chandeliers provides for two color schemes: bright modern - crystal framed in gold with blackening and discreet classics - crystal with nickel edging.

Polet

Polet is a collection where every detail is carefully and finely tuned with one goal – to create impeccably beautiful lighting and emphasize the individual style of the owners of the house. Matte gold or black – choose the color of the product that will enhance the charm of all the elements and objects in the room and radically transform the interior in an instant.

LOFT

Klarka

The Klarka series is a collection of wall sconces inspired by the 1960s and 70s. Today, retro style is very popular. In furniture, in lamps, in color schemes - this trend can be traced everywhere. The series is presented in white and black versions in brushed metal.

Darunia

Luminaires of the Darunia collection with an attractive design will create a warm and cozy atmosphere, harmoniously fit into the concept of the interior composition of a modern apartment. Luxurious smoky and caramel glass pendants attract attention during the day, especially on sunny days, and in the evening become one of the most expressive elements of the decor in the spacious living room.

Monisia

Monisia hanging chandeliers are perfect for creating a cozy atmosphere in separate rooms of an apartment or a private house. In spacious open-plan interiors, it is quite easy to create three-dimensional lighting - in the design, all LED rings are of different diameters and are slightly inclined. In the collection, designers have provided two colors: chrome and bronze.

Polunia

When creating the Polunia collection, the designers used a lightweight, almost weightless suspension design and decorated it with pentagon-shaped LED lamps. In this way, when turned on, the effect of light soaring will be as close to real as possible, and a multi-level chandelier will attract attention.
